SALCOMBE GIN SCHOOL EXPERIENCE

At Salcombe Gins outstanding distilling laboratory for adults, you will take charge of a beautiful mini copper pot still to develop and distil your very own 70cl bottle of gin. Under the guidance of one of their distillers, you will learn about the art of distillation and what it takes to produce a well-balanced and harmonious gin, whilst enjoying a Salcombe & Tonic or two. You'll enjoy sampling and naming your unique creation before bottling your gin. It's then time to apply a personalised label and place your bottle in one of their exclusive Gin School wooden presentation boxes for you to take home. Finally, to complete your Gin School experience, you'll head over to the distillery bar at The Boathouse to taste your newly created gin with a range of garnishes and tonics whilst enjoying the estuary view.
