

# The TREVILDER Wine List

This wine list has been compiled so as to give a wide and extensive coverage of wines from across the world. I have concentrated on selecting wines from individual vineyards and some of the very best, passionate producers, so that I can be sure that the end result is of the highest quality and characteristic of the country and region that the wine is from.

In keeping with more modern, consumer-friendly wine lists, I have made some major changes as to how we serve and offer our wines. Our **VERRE DE VIN** wine preservation system gives us the opportunity to considerably broaden the number of wines we can offer by the glass (15 in total) and nearly all of these are available in 500ml. carafes. This is to give you the chance to select wines that are ideally suited to your individual tastes and dishes. Besides this, there is seasonally changing selection, by the bottle, which includes old favourites, along with many new, cutting edge wines from around the world. Towards the rear of the list you'll find our extensive selection of "Classic and Venerable" wines, which I have carefully selected over the years, from top-flight châteaux and estates.

If you would like any assistance then our Wine Waiter will be pleased to help, and I trust you will enjoy whichever wine you settle upon. If any vintages have changed during the life of this list, then the next best vintage will be offered.
